A

Abstracts of current literature, 573
of papers presented at twenty-first annual meeting of American Academy of Oral Pathology,* 374
Actinomycosis, periapical cyst associated with (Martinelli and Rulli), 817
Addent; pulp response in rat molars to new restorative material (Russell, Grove, and Cotton), 253
Adenoameloblastoma(s)—follow-up study of thirty-five cases from literature and two additional cases (Halperin, Carr, and Peltier), 375 (A.A.O.P. abst.); 642
odontogenic tumors (Spouge), 394
Adenocarcinoma, metastatic, of mandible (Straith), 1
Adenoma, pleomorphic (Ivancie), 852
Adhesive(s), chemical; tissue response of rat tongue to hexyl, heptyl, and octyl cyanoacrylate (Bhaskar, Frisch, and Margetis), 137
plastic, for nonsuture sealing of extraction wounds in heparinized dogs (King, Reynolds, and Kruger), 307
tape repair for inferior alveolar nerve injuries (Merrill), 693
Age estimation, transparent dentine in, 377 (A.A.O.P. abst.)
Airstream directed into human cavity preparations, pulp response (Cotton), 78
Albino, human, intraoral malignant melanoma in (Garrington et al.), 224
Allergy; dermatologic aspects of oral medicine (Samitz and Dana), 746
erythromycin (Nichols, Cherrick, and Keesling), 323
skin diseases with mucocutaneous involvement (Perry), 800
Alveolus, maxillary anterior, cleft in midline, 380 (A.A.O.P. abst.)
Ameloblastoma(s) associated with dentigerous cyst in 6-year-old child (Dresser and Segal), 388
follow-up of adenoameloblastomas (Halperin, Carr, and Peltier), 642
jaw and pituitary, calcifications and atypical amelogenesis, 375 (A.A.O.P. abst.)
odontogenic tumors (Spouge), 395
